Mode log

One sheet per assignment. Fill one line every time you use AI on it, at the time, not afterwards. Hand it in when the assignment sheet asks for it. An honest line is worth more than a tidy one.

Assignment: _____ Mode on the sheet: ☐ B (Tutor only) ☐ C (Full use)

Date	What I asked (a few words)	Which mode	What I checked myself	What I changed

Which mode: Oracle, Tutor, Mirror, Adversary, Librarian, or another you can name. If you used the Oracle in Mode B, record it; it counts as a deviation. **What I checked myself:** something outside the chat (a page, a source, your own working), not "I asked it if it was right".
