Who checks? Assignment sheet

Attach this to the assignment. The teacher fills part 1 before setting it; the student fills part 2 and hands it in with the work.

Assignment: _____ Class: _____ Due: _____

1. The teacher sets the mode (tick one)

	Mode	The AI may	You hand in
☐	**A: No AI**	Nothing.	The work.
☐	**B: Tutor only**	Act as **Tutor, Mirror, Adversary or Librarian**, each with its one rule. **Not the Oracle:** do not ask it for answers. It writes no part of what you hand in.	The work and your mode log.
☐	**C: Full use**	Anything the school's rules allow, including drafting, and any stance.	The work, your mode log, the deviation report below, and the unaided part.

Done unaided (without AI, where I can see it): ☐ in class ☐ in a short conversation with me ☐ other, supervised:

What exactly is done unaided

The teacher's check. I will check this work by: ☐ comparing it with the unaided part ☐ asking you about one line of your mode log ☐ looking up some of your sources ☐ asking you to explain one part in your own words ☐ other:

2. The student declares

Name: _____

Stances I used (circle): Tutor · Mirror · Adversary · Librarian · Oracle · other: _____ · none

Mode log attached: ☐ yes ☐ not needed (Mode A). If you used the Oracle in Mode B, record it; it counts as a deviation.

Deviation report (Mode C). A few words on each line.

Question	My answer
Which parts the AI produced or changed	
Where I departed from what it gave me, and why	
What I checked, and how (not "I asked the same chat")	
What I could not check	

I declare that this is an honest account of how I used AI on this work. Signed: _____ Date: _____

3. The teacher's check (after marking)

Reading the log: look for named stances and specific checks ("worked example p. 41", not "checked it"). Pick one line and ask "show me". An Oracle line in Mode B counts as a deviation, and the student told you: talk first, then apply what this sheet said. Teacher guide, section 7.

What I checked	What I found
